UNIVERSITY LOCATOR MAP

NEW ZEALAND EXCELLENCE AWARDS 2017

New Zealand Excellence Awards (NZEA) is a unique initiative to encourage ambitious and capable Indian students to study at world-class universities in New Zealand.

New Zealand universities are among the best in the world – all are within the top 3 percent of universities worldwide.

New Zealand education promotes the spirit of invention, innovation and collaboration. Students are encouraged to think for themselves. Inquisitiveness, curiosity and independent thinking are rewarded.

NZEA features **35 scholarships** across all eight universities, offering an opportunity for Indian students to experience New Zealand excellence in various fields such as related programmes.

This directory gives information on scholarships, eligibility and application details from all eight participating New Zealand universities:

- AUT University
- Lincoln University
- Massey University
- University of Auckland
- University of Canterbury
- University of Otago

- University of Waikato
- Victoria University of Wellington

Scholarship applications should include:

- Offer letter from the New Zealand university
- Completed scholarship application form

Important dates:

- Application to study at university by:
30 October 2017
- Application for scholarship by:
15 November 2017

All scholarship applications should be submitted online on
www.studyinnewzealand.govt.nz/new-zealand-excellence-awards

Successful candidates will be informed individually.

Foreword by Joanna Kempkers

Joanna Kempkers
High Commissioner to India,
Sri Lanka, Bangladesh, and Nepal

New Zealand and India enjoy a long standing and a very positive relationship. We share a Commonwealth heritage, legal system, English as business language, democratic relations and a shared passion for the sport of cricket. New Zealand is home to over 150,000 people of Indian origin (4% of total population), with Hindi as the fourth most spoken language.

New Zealand places a strong emphasis on education. We pride ourselves on an education system which nurtures creativity and innovation; which celebrates independent thinking and problem solving and which inculcates in students a culture of learning and team work.

India is our second largest source market for international students. New Zealand campuses recorded over 28,000 Indian students in 2016 with our universities seeing an increase of 19% enrolments over 2015.

The New Zealand Excellence Awards are a great way to encourage ambitious and capable Indian students to choose New Zealand as their higher education destination and join the existing cohort of Kiwi Ambassadors around the world. These Awards offer an outstanding opportunity for Indian students to experience world class New Zealand education, while developing life-long people to people links right across the globe and enjoying all that New Zealand has to offer while contributing to New Zealand's global linkages, fostering future diplomatic, trading and investment links.

A New Zealand experience offers cultural understanding and economic opportunities worldwide.

My best wishes to you all as you enter an exciting new era of learning that will benefit both our countries.

Message from Grant McPherson

Grant McPherson

Chief Executive

Education New Zealand

Following the success of the 2016 New Zealand Excellence Awards, I am delighted to announce the 2017 round of the scholarships.

The New Zealand Excellence Awards are a joint initiative of Education New Zealand and New Zealand's eight universities. They offer high-achieving Indian undergraduate and graduate students a chance to advance their careers through specialist study in New Zealand.

We were very happy with the enthusiastic response that these scholarship awards received across India's key metro cities and other regions, and the high calibre of students who applied. Through the 2016/17 round, 31 of India's top scholars studied at New Zealand universities in the fields of science, technology, engineering, business and design, and enjoyed the special Kiwi lifestyle.

We look forward to welcoming a new group of scholars to our universities for the 2017/18 round.

New Zealand is a premier education destination and Indian students have much to gain from studying at New Zealand universities. All eight of our universities are ranked among the top 3 percent globally. A New Zealand education provides essential academic skills and supports students to think critically and creatively, and to apply those skills in the workforce.

New Zealand also benefits in many ways – socially, culturally, intellectually – as Indian students make their way to our campuses. New Zealand Excellence Award recipients are helping to strengthen ties between our two countries by contributing to a broader exchange of ideas in our universities and building our respective research capabilities. They also add richness to our communities and workplaces.

The kaupapa (values) of New Zealand are to embrace visitors with an open mind and open heart, recognising that we are all richer for the experience of knowing each other.

We are proud that New Zealand will play a role in shaping the education journey of increasing numbers of talented young people who will be India's future leaders.

I wish you all the best in your application, and look forward to welcoming you to New Zealand – Nau mai, haere mai.

AUT UNIVERSITY

AUT University was established in 1895 and has transitioned from an excellent polytechnic to become a world ranked university. AUT is accredited by the New Zealand Government and is globally competitive. Our teaching, research and community work integrate the most contemporary thinking, and are focussed on fields within:

- Culture and Society
- Business Economics and Law
- Design, Economics and Creative Technologies
- Health and Environmental Sciences
- Māori Development

Established relationships with employers and professionals make the teaching and research relevant to current and future industry, which accounts for our high graduate employment rate.

Based in Auckland New Zealand with three well-positioned campuses – one in central city, one on the North Shore across the Auckland Harbour Bridge and one in Manukau, South Auckland. Auckland is ranked third equal in the world's top cities to live and work in and is the commercial capital, with all the qualities of an international city.

**Message from
Derek McCormack
Vice Chancellor
AUT University**

AUT is New Zealand's second largest and fastest growing university. More than 28,000 students study at our three campuses across Auckland – the country's fastest growing city.

Our diversity and international outlook has led to global recognition – we are ranked in the top 2% of the world's universities in the QS World University Rankings, and ranked in the top 50 world universities under 50 years old by Times Higher Education.

We look forward to welcoming the recipients of the New Zealand Excellence Awards to our collaborative and innovative university environment within the beautiful multicultural city of Auckland.

LINCOLN UNIVERSITY

Established in 1878, Lincoln University has been a key contributor to the primary industries that sit at the core interests of New Zealand's economy. Ranked in the top 400 in the world, and top 50 in agriculture and forestry and hospitality and leisure management (QS Rankings), we are the only specialist land-based university in New Zealand.

The University's qualifications range from certificate level through to PhD and our teaching and research covers all activity associated with the land-based sectors to meet the needs of not only New Zealand but also the world.

Small class sizes, practical work, relevant field trips, highly connected to industry for research collaboration and commercialisation, student exchange opportunities with international universities, are a few good reasons why you should choose Lincoln University.

Message from
Professor Robin Pollard
Vice Chancellor
Lincoln University

Welcome to Lincoln University!

As New Zealand's only specialist land-based university, join us to become part of our mission to solve some of the world's biggest problems: how to feed the world, protect its future, and to help people live well. In doing so, you are setting yourself up for a career with a worthy future and skills in demand the world over.

For more than 135 years, Lincoln has focussed on discovery, learning and sharing about the land. We will equip you with the knowledge, skills and confidence you will need to start your career. You will study in an environment where the activities of tomorrow are being invented and discussed here today.

MASSEY UNIVERSITY

Massey University began in 1927 as an agricultural college in Palmerston North and is now New Zealand's largest residential university, spread over three cities: Auckland, Palmerston North and Wellington.

With a tradition of academic excellence, Massey University is New Zealand's truly national university. Massey has nearly 18,000 students enrolled on three main campuses, and approximately 17,000 national and worldwide distance learning (extramural) students.

At Massey, we embrace diversity, talent and performance, and provide staff and students with an extensive range of opportunities to develop intellectually, professionally and personally.

Massey is known for:

- Ground-breaking research
- The applied nature of many of our teaching and research programmes
- Contribution to land-based industries
- Distinctive mix of campus-based, distance and international teaching
- Commitment to innovation
- Close links with the community
- An 80-year tradition of academic excellence

Welcome to Massey University – Te Kunenga Ki Pūrehuroa

As New Zealand's 'Defining University,' with campuses in three North Island cities – Wellington, Palmerston North and Auckland, Massey University welcomes around 4500 international students each year from more than 100 countries and has more than 32,000 students in total. We also provide quality distance and on-line education throughout the world.

We are delighted to welcome New Zealand Excellence Awards students from India. Massey has many areas of academic specialisation. Of particular interest to the scholarship students is our international reputation in Creative Arts (including Design), Health and Sciences (including Engineering). What you learn at Massey will take you anywhere in the world.

I wish you an enjoyable and productive time at Massey University.

UNIVERSITY OF CANTERBURY

A history of academic excellence

The University of Canterbury (UC) was established in 1873 and is New Zealand's second oldest university. Since its establishment, UC has produced graduates who have gone on to become world leaders in their fields. UC is committed to continuing this tradition of excellence and to developing tomorrow's leaders.

Outstanding international academics

UC has a number of field leading academics on staff and is enhanced by a number of outstanding international professors, lecturers and researchers who visit each year on our staff exchange programmes. You may be taught by academic staff from the universities of Oxford or Cambridge as well as other top universities.

UC's Erskine Programme attracts up to 75 distinguished, international academic visitors each year to give lectures in their specialist areas. Previous Erskine Fellows having included two Nobel Prize winners - Emeritus Professor Clive Granger and Professor Bob Grubbs.

University of Canterbury**

I am delighted that you are exploring what the University of Canterbury has to offer international students. I believe that, as a study destination, our combination of world-recognised academic qualifications, wonderful natural environment, and great student lifestyle has few equals anywhere in the world.

In 2015, Times Higher Education named UC as the 22nd best university in the world for internationalisation (the highest in New Zealand), citing UC's student body, its ability to attract staff from around the globe and the volume of collaborative international research projects.

Whether you are an undergraduate seeking a first qualification, or a postgraduate wanting to push the boundaries of knowledge in your discipline, I am sure you will find what you are looking for at UC.

UNIVERSITY OF OTAGO

Welcome to the University of Otago – New Zealand's first university and the first choice for more than 20,000 students, including 2,500 international students.

Otago has a five star plus international quality rating for internationalisation (QS Stars) and is ranked 151st in the world on the QS World University Rankings. As a world-class teaching and research University, Otago offers a first-class education across a range of qualifications in Business, Health Sciences, Humanities and Sciences. In the 2017 QS World Rankings, Otago placed in the top 100 Universities in 13 subject areas including Law, Physiology, Dentistry, Medicine, and sports-related subjects.

After almost 150 years, we're still leading the way when it comes to world-class teaching and a legendary student lifestyle – the two core elements that set the University of Otago apart, and the reason students from across the country and around the world choose us for their tertiary education.

Most study takes place at our campus in Dunedin, a safe city that is easy to get around and has a relatively inexpensive cost of living. The University also has campuses in Auckland, Wellington, Christchurch and Invercargill. Our international students choose to live in one of our residential colleges while others prefer to stay in university-managed flats. Whichever you choose, the support is there to help you get the very best out of your time at Otago.

**Message from
Professor Harlene Hayne
Vice Chancellor
University of Otago**

The University of Otago is thrilled to support the New Zealand Excellence Awards for India. We already have many Indian students enrolled in our PhD programmes, and in receipt of Otago scholarship assistance. These Excellence Awards will provide additional opportunities for new students to study selected bachelors' and masters' programmes at Otago. All students who choose Otago enjoy our very high standard of teaching and research combined with an outstanding living environment. Otago has recently been granted the maximum possible Five Stars + quality rating from international ranking organisation QS stars in recognition of the high calibre of our teaching, research, innovation, facilities, internationalisation and inclusiveness and of the employability of our graduates. I look forward to welcoming you to one of our Otago campuses in New Zealand.

UNIVERSITY OF WAIKATO

NEW ZEALAND

Waikato University stands proudly on the world stage as an institution that provides a future-focused international education and plays an active part in global research. Our rankings are a reflection of our strengths as a university.

We are proud to be in the top 1.1% in the world in the latest QS World University Rankings.

In July 2016 we were awarded a five star rating by QS Stars, confirming the University of Waikato's status as a world-class university with a high reputation for employment, cutting-edge facilities, internationally renowned research, and outstanding teaching and student satisfaction.

At Waikato our eligible engineering programmes are fully accredited by The Institution of Professional Engineers New Zealand (IPENZ).

Our Faculty of Computing & Mathematical Sciences is the first and only New Zealand member of the international group of iSchools - a partnership of the world's leading information schools.

Waikato Management School is a member of an elite group of business schools worldwide that have earned "Triple Crown" status - an international acknowledgement of excellence in business education.

**Message from
Professor Neil Quigley
Vice-Chancellor
University of Waikato**

The University of Waikato is ranked in the top 1.1% of universities worldwide and is the university of choice for more than 12,000 students each year.

Established in 1964 as a result of the demands of a local community, the University of Waikato offers a comprehensive range of programmes and attracts outstanding students from New Zealand and around the world. The University is a vibrant multicultural community providing a high quality student experience in a beautiful park-like campus environment.

Our motto, Ko te Tangata (For the People), is at the heart of everything we do. It is our people who make this University distinctive and it is our ability to continually find new and better ways to serve the communities around us that sustains our distinctiveness.

Our graduates are committed to making a real difference for their employers. The newly implemented Curriculum Design Framework will see the University delivering a more future-focussed curriculum that is responsive to changing student, employer and societal needs.

Whatever your aspirations may be, the University of Waikato provides an outstanding learning environment and we look forward to seeing you on campus.

** prerequisites apply Mathematics with Calculus, Chemistry and Physics.

Please allow 4-6 weeks to receive offer of place from universities

Why New Zealand

NEW ZEALAND HAS A WORLD CLASS EDUCATION SYSTEM

New Zealand has a world class tertiary education system – overall, New Zealand’s education system is among the best in the world. All eight of New Zealand’s universities are ranked in the top 3% in the world by QS World University Rankings. A range of subjects taught at universities rank in the top 50 in the world.

AN INTERNATIONAL EDUCATION IN NEW ZEALAND STANDS OUT FROM THE CROWD

New Zealand really stands out from the crowd compared to other international education destinations. As well as being specialists in areas such as fashion, engineering and animation, the country’s tertiary education system offers niche courses which have good career prospects including media and design, sports management, hospitality, adventure tourism, aviation and cyber security.

NEW ZEALAND PRODUCES WORK-READY GRADUATES

One of New Zealand’s biggest strengths is its focus on producing work-ready graduates. Internships and industry placements are a common feature in courses. Students graduate equipped with the internationally recognised skills, qualifications and experience to either start their own ventures or enter the workforce in India, New Zealand or anywhere else in the world.

INNOVATIVE TEACHING TECHNIQUES

The New Zealand education system encourages creative thinking and teaching techniques that reach far beyond traditional rote learning. Our innovative approach to learning and esteemed qualifications are highly valued by the world’s business and community leaders.

STUDENT SAFETY AND PASTORAL CARE

New Zealand is the most peaceful English-speaking country in the world. The 2017 Global Peace Index, which compares 163 countries for safety and the risk of personal violence, ranks New Zealand the second most peaceful country in the world.

New Zealand was the first country in the world to launch the Code of Pastoral Care for international students. Any institution which has international students has to be a signatory to the Code. This sets out standards of care education providers must provide to international students living and studying in New Zealand.

WELCOMING

New Zealand is a very diverse and welcoming country, where Indian festivals like Diwali and Holi are celebrated across most educational campuses throughout New Zealand. Hindi is the fourth most commonly spoken language in New Zealand.
