+11%

International student enrolments in Australia

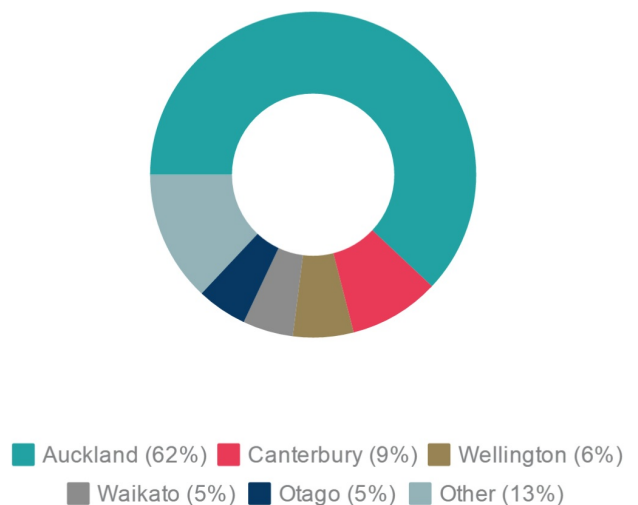

Number of international students from 2010 to 2015

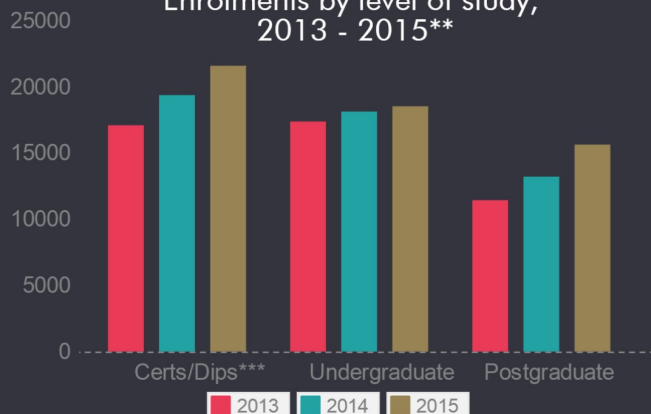

Regional enrolment variations (alphabetically)*

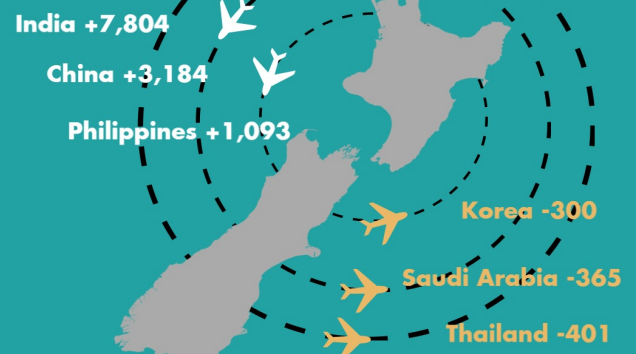

Proportional distribution of students by region, 2015

Enrolments by level of study, 2013 - 2015**

Top three increases and decreases by source country

Developed by Education New Zealand.

This infographic includes data on full fee-paying, NZ Aid, PhD, foreign research postgraduate and exchange students. It combines the data sources from the Ministry of Education: the Export Education Levy and Single Data Return (SDR) data. Offshore students are also included if classified as offshore in the SDR. Link to data source: student numbers (www.educationcounts.govt.nz).

*Other includes the 'unknown' field and distance provision

**These include Government funded tertiary providers only, which are universities, institutes of technology (ITPs), wānanga, and government funded private training establishments (PTEs).

***Certs/Dips includes Certificates from level 1 - 4 and Diplomas from level 5 - 7 in the SDR.

These figures are provisional and are subject to change in the full year release.
