

Student Visa Dashboard October 2015

Regional and sector overview

Introduction

- *The regional dashboard is a new intelligence product developed by Education New Zealand to provide timely and relevant international student data to the international education industry. It presents and analyses New Zealand's regional international student visa trends, providing a monthly round up of where in New Zealand international students are choosing to study, and what sectors they're in by region.*
- *The Regional Student Visa dashboard complements the existing [Market Student Visa Dashboard](#), which provides analysis of INZ data by market and sector across the whole of New Zealand.*
- *Student visas are the most readily available international student data, as there is only a one month lag between student visas being approved and Immigration New Zealand (INZ) publishing the data. Student visa data is a strong indicator of whether students are entering, remaining in, or leaving New Zealand. This provides a useful predictor for future enrolment trends.*
- *Student visa trends allow us to analyse two key indicators:*
 - *growth of new student numbers (first time student visas)*
 - *retention of international students within New Zealand (returning student visas)*
- *First time student visas are an indicator of growth as they represents new students entering the international education pipeline. This information can be a useful indicator for industry on efforts to attract new international students.*
- *The number of total student visas includes first time student visas, and returning student visas. The number of returning student visas can provide a useful indicator to industry of students' experiences in New Zealand, and their desire to continue their studies here.*
- *ENZ utilises its knowledge of the global international education market and available data to provide a range of intelligence services and products to New Zealand's international education industry, helping the industry identify growth opportunities. ENZ welcomes feedback on this Dashboard. Please email intelligence@enz.govt.nz.*

Caveats and notes

- **Student visas vs. visitor visas:**
 - Total student visas (TSV), first time student visas (FSV), and renewed student visas (RSV) only capture students who enter New Zealand with a student visa. These students are mostly those who are planning to study for more than three months.
 - Students who undertake a course of less than three months are not required to enter on a student visa. Students who choose to enter on a visitor visa (usually from visa-free nationalities) are not captured in this dashboard.
 - This impacts the Private Training Establishments (including English Language Schools) numbers.
- **Student visas vs. enrolments:**
 - There is potential delay of up to three months between students having their visas approved and actual entry into New Zealand, therefore the figures shown here may not represent the actual number of students currently in New Zealand.
- **Methodology:**
 - The following Dashboard's methodology has been revised to exclude dependants, applicants under Section 61, and Variation of Conditions. Dashboards prior to May 2015 include approvals from "all" applicants, including dependants.
- **Work in progress:**
 - ENZ is currently working on understanding:
 - the true demand of student visas – i.e. TSV applications vs. TSVs approved
 - the correlation between ENZ activity and policy changes on FSV trends
 - the impact of RSV on overall trends.
 - a relatively large number of "not recorded" entries for FSVs at the provider level
 - the correlation between student visas and enrolments
- **Note:**
 - Due to the way Immigration New Zealand captures regional information, the Manawatu region also includes Wanganui.
- **Abbreviations:**
 - YTD: year-to-date
 - TSV: total student visa
 - FSV: first time student visa
 - RSV: returning student visa

Key trends

YTD

- Growth in total student visas (TSV) has been driven by the Auckland, Canterbury, Waikato and Wellington regions.
- YTD TSVs increased by 13% (9,325) and first time student visas (FSV) increased by 13% (4,293). Returning student visas also increased by 14% (5,032).
- The ITPs, PTEs, and universities have experienced the strongest YTD growth in FSVs, up 44% (1,950), 10% (1,599), and 8% (547).

October

- October was a significant month for student visa approvals with a 36% (1,439) increase in TSVs and a 27% (683) increase in FSVs, on 2014.
- October TSV growth was driven by Auckland, Wellington, and Bay of Plenty.
- All sectors experienced growth in TSVs.

	TSVs for October	Change	% change
Increases	Auckland	1,039	39%
	Wellington	108	49%
	Bay of Plenty	94	122%
	Canterbury	92	27%
	Waikato	67	26%
Decreases	Manawatu	-10	-13%
	Nelson	-31	-34%

	FSVs for October	Change	% change
Auckland	465	28%	
Waikato	91	53%	
Bay of Plenty	49	94%	
Canterbury	48	22%	
Wellington	37	25%	
Southland	29	94%	
Manawatu	-17	-36%	
Nelson	-42	-47%	

	Sector TSVs for October	Change	% change
PTEs	995	40%	
ITPs	245	45%	
Secondary	156	37%	
Universities	54	8%	
Primary	10	67%	
Intermediate	10	83%	

	Sector FSVs for October	Change	% change
PTEs	418	28%	
ITPs	169	43%	
Secondary	45	16%	
Universities	35	10%	
Primary	11	183%	
Intermediate	7	88%	

How to read the dashboard

The monthly result:

- Actual change in visa numbers
- Percentage change in visas
- Directional indicator

This pie graph represents the country distribution of TSVs YTD.

The YTD result:

- Actual change in visa numbers
- Percentage change in visas
- Directional indicator

This graph represents the sector distribution of TSVs YTD.

Shows the top and bottom 3 performing markets (FSVs) for the month within the region.

Shows the top and bottom 3 performing markets (FSVs) YTD within the region.

Overall performance indicator of the market

Name of the region

These graphs show a monthly trend of actual visa numbers from 2012 – 2015.

These graphs show the major market movements YTD in TSVs for the region.

Key or interesting trends to consider

Auckland: ● **September RSV** ↑ 789 55% **September FSV** ↑ 457 23% **September TSV** ↑ 1,246 36% **YTD RSV** ↑ 3,416 15% **YTD FSV** ↑ 2,401 13% **YTD TSV** ↑ 5,817 14%
