Note that research proposals must be developed in partnership with Brazilian collaborators.

Proposals should include the following:

- a) A substantive description of the activities, emphasising their relevance. The proposal must state clearly how the exchange activities to be carried out by each team will contribute to the ongoing research project funded by FAPESP and to the research being carried by the partner researcher at the New Zealand university;
- b) Provide a timeline for each mission, considering the limit of missions and resources established in the Call (up to NZD12,500 funding per application);
- c) Performance indicators for the planned activities, indicating the expected results;
- d) Provide a description of each candidate’s contribution to the mission, explaining their expertise to carry out the foreseen activities;
- e) Describe any foreseen actions adding to the impact of the exchange for the host institution in New Zealand and for the host institution in the State of São Paulo, e.g., by means of seminars, short courses, etc;
- f) Description of how the Principal Investigator/s in São Paulo and at the New Zealand university intend to prepare a joint research project, resulting from the exchange activities developed from the proposal submitted in this Call, to be submitted to research funding agencies accessible in their regions in order to create a medium to long-term collaboration (up to one page).
